# YENCHING GLOBAL SYMPOSIUM 2023

Humanity: Cartographies of Collaboration

Hainan, China

# 01 YENCHING GLOBAL SYMPOSIUM

Peking University has been the foremost domestic academic setting for understanding China for over a century. The Yenching Academy of Peking University provides a rigorous Master's program for the interdisciplinary study of China. It aims to shape new generations of global citizens with a nuanced understanding of China.

As the flagship event of the Yenching Academy, the Yenching Global Symposium (YGS) is one of the world's most selective and highly anticipated conferences on global affairs. Held every spring, the symposium comprises engaging lectures, panel discussions, and interactive sessions on topics surrounding China and the world. Each year, YGS features prominent and distinguished speakers from various fields, including esteemed scholars, eminent leaders, and experienced professionals. The symposium presents delegates with an unparalleled opportunity to learn from and exchange ideas with a diverse international group of experts from academia, government, and industry.

# MISSION

The Yenching Global Symposium (YGS) provides a platform for emerging leaders, established practitioners, and Yenching Scholars around the globe to engage in interdisciplinary dialogues on China through the unique lens of the Yenching Academy of Peking University.

# VISION

By exploring key issues related to China and the world, YGS seeks to enable emerging leaders, established practitioners and Yenching Scholars to develop informed solutions to global problems.

# 02

# 03

The world today is confronted with a series of global challenges, risks, and uncertainties that cannot be addressed by individual institutions or countries. Yet, we live in an increasingly divided world with deepening fault lines within and across borders. The global community urgently requires constructive dialogue and international cooperation to advance our broad common interests. It is in this spirit that we call upon all of humankind to rise above divisions, assert our common humanity, strengthen our solidarity as one, and join mind and hand to address the complex problems the world is facing.

## THEME

# 04

**互** **manity: Cartographies of Collaboration** 因缘互生，共图未来 aims to foster interaction across borders, cultures, and societies, promote mutual understanding, achieve consensus, facilitate the diffusion of ideas, and advance collaboration to develop strategies and solutions to address global issues. YGS 2023 will explore connections and opportunities for cooperation along three dimensions:

- **Geographical Affinity** 地缘：地以通和
- **Cultural Affinity** 文缘：文以载道
- **Human Affinity** 人缘：人以传情

YGS 2023 aims to map, chart, and illustrate the forms of collaboration which humanity needs, as well as engage, enable, and empower participants to comprehend contemporary issues and build partnerships for overcoming global challenges.

# 07

**Humanity**  
Cartographies of Collaboration

The logo of YGS 2023 features the Chinese character "互" (hù), which means mutuality. It encapsulates the spirit of interaction and collaboration YGS 2023 aims to achieve.

The design of the logo is inspired by contour lines used in maps, which reflect cartography. The color blue is also inspired by ocean waves, and is reminiscent of the tropical island of Hainan where YGS 2023 will take place. The five different shades of blue reflect the philosophies of unity in diversity and strength in differences, perfectly captured by the Chinese idiom “海纳百川，有容乃大” (the sea accepts all streams and is hence vast).

## Hainan Lingshui Li'an International Education Innovation Pilot Zone

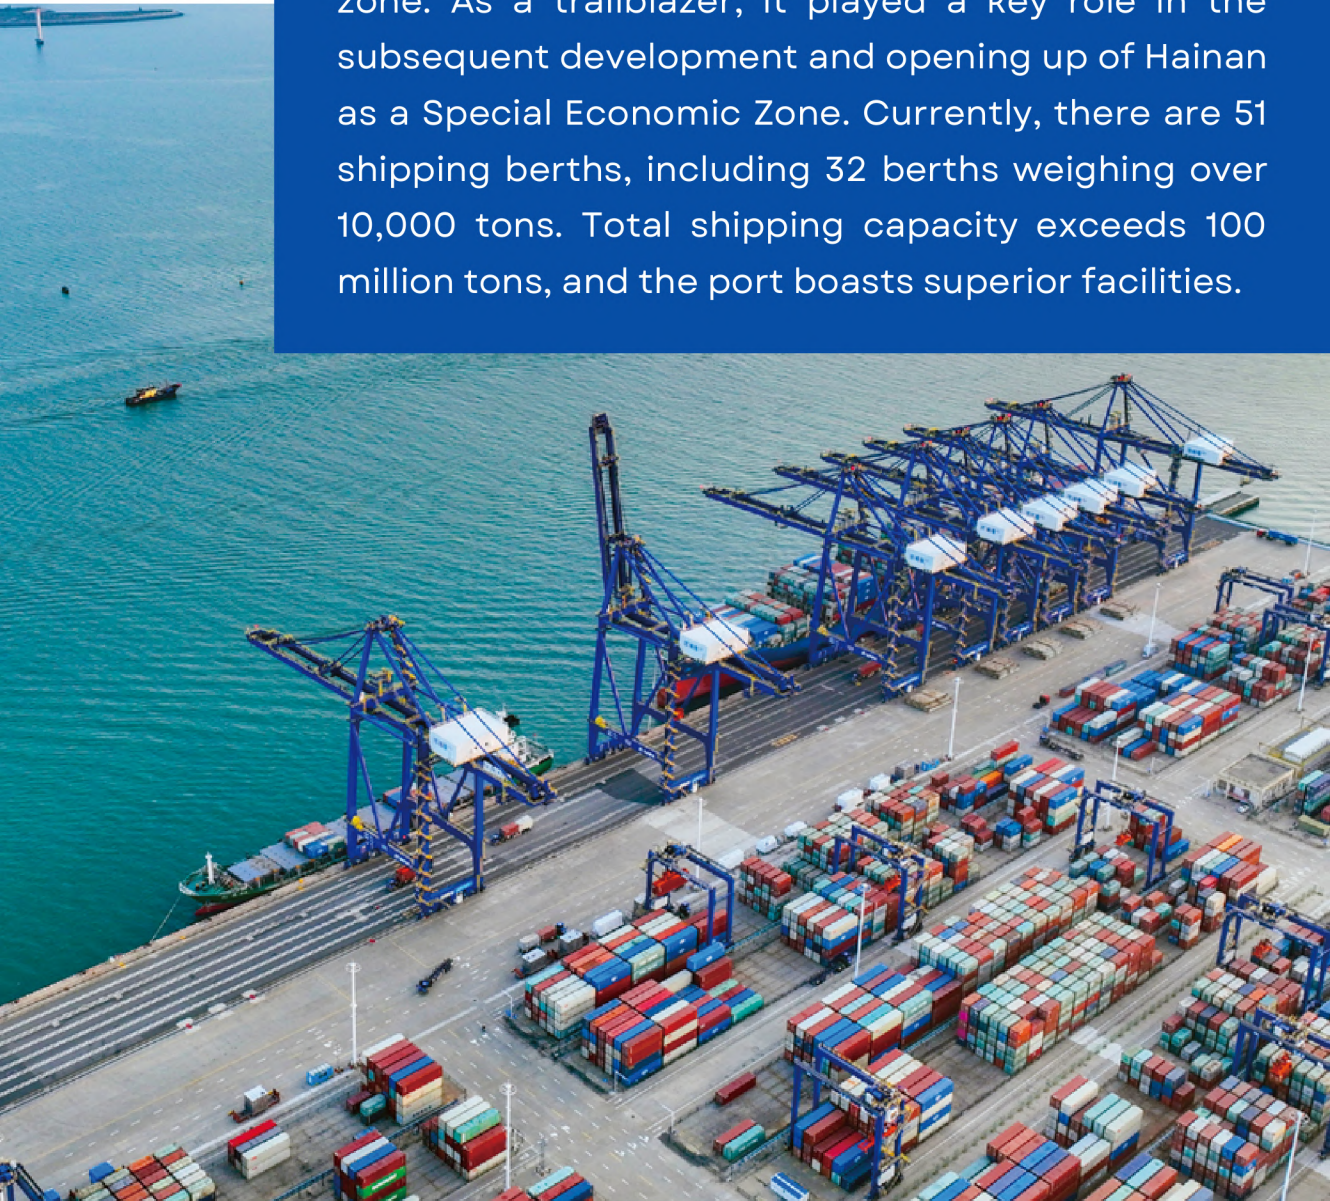

Hainan Lingshui Li'an International Education Innovation Pilot Zone was established in June 2020, and it is one of the 11 key zones in Hainan Province to accelerate the construction and development of the Hainan Free Trade Port. It is also the only key zone in China which focuses specifically on international cooperation in education. The zone is planned to span 3.7 million square meters.

Most of the symposium activities on 15 April and 16 April will take place here.

Yangpu is located in the northwest of Hainan Province. The Yangpu Economic Development Zone was established in 1992, making it the first national economic development zone in China to be developed by foreign investors and where businesses can enjoy the benefits of a bonded zone. As a trailblazer, it played a key role in the subsequent development and opening up of Hainan as a Special Economic Zone. Currently, there are 51 shipping berths, including 32 berths weighing over 10,000 tons. Total shipping capacity exceeds 100 million tons, and the port boasts superior facilities.

Jiahe Shared Farm is located in Danzhou City, Hainan Province. Established in 2007 and spanning 69.2 acres, the farm is known for its efforts in rural revitalization and the protection of Hainan's cultural heritage.

On 17 April, delegates will visit Jiahe Shared Farm and have the opportunity to enjoy their many local-themed exhibition galleries.

# POSTER SHOWCASE

On 16 April, YGS will be hosting a lunchtime “Poster Showcase”, where delegates will have the chance to share their research with their fellow delegates in a casual setting.

Delegates who have submitted their poster beforehand will have their posters printed out. They will have the opportunity to present their research to interested audiences. We hope that this showcase can spark new inspirations and friendships amongst YGS 2023 delegates!
